

LONG-TERM CARE

Partnering to help create clean, healthy spaces that foster well-being

Count on a Scientific Clean™ to inspire confidence
and resident satisfaction

ECOLAB®

Together, creating cleaner spaces for your residents

The Ecolab Long-Term Care program is designed to help create healthy spaces that attract residents and retain staff. Our science-based solutions are designed to:

Improve productivity through time and labor savings

Promote health with EPA-registered disinfectants and sanitizers

Manage resources through reduced environmental impact¹

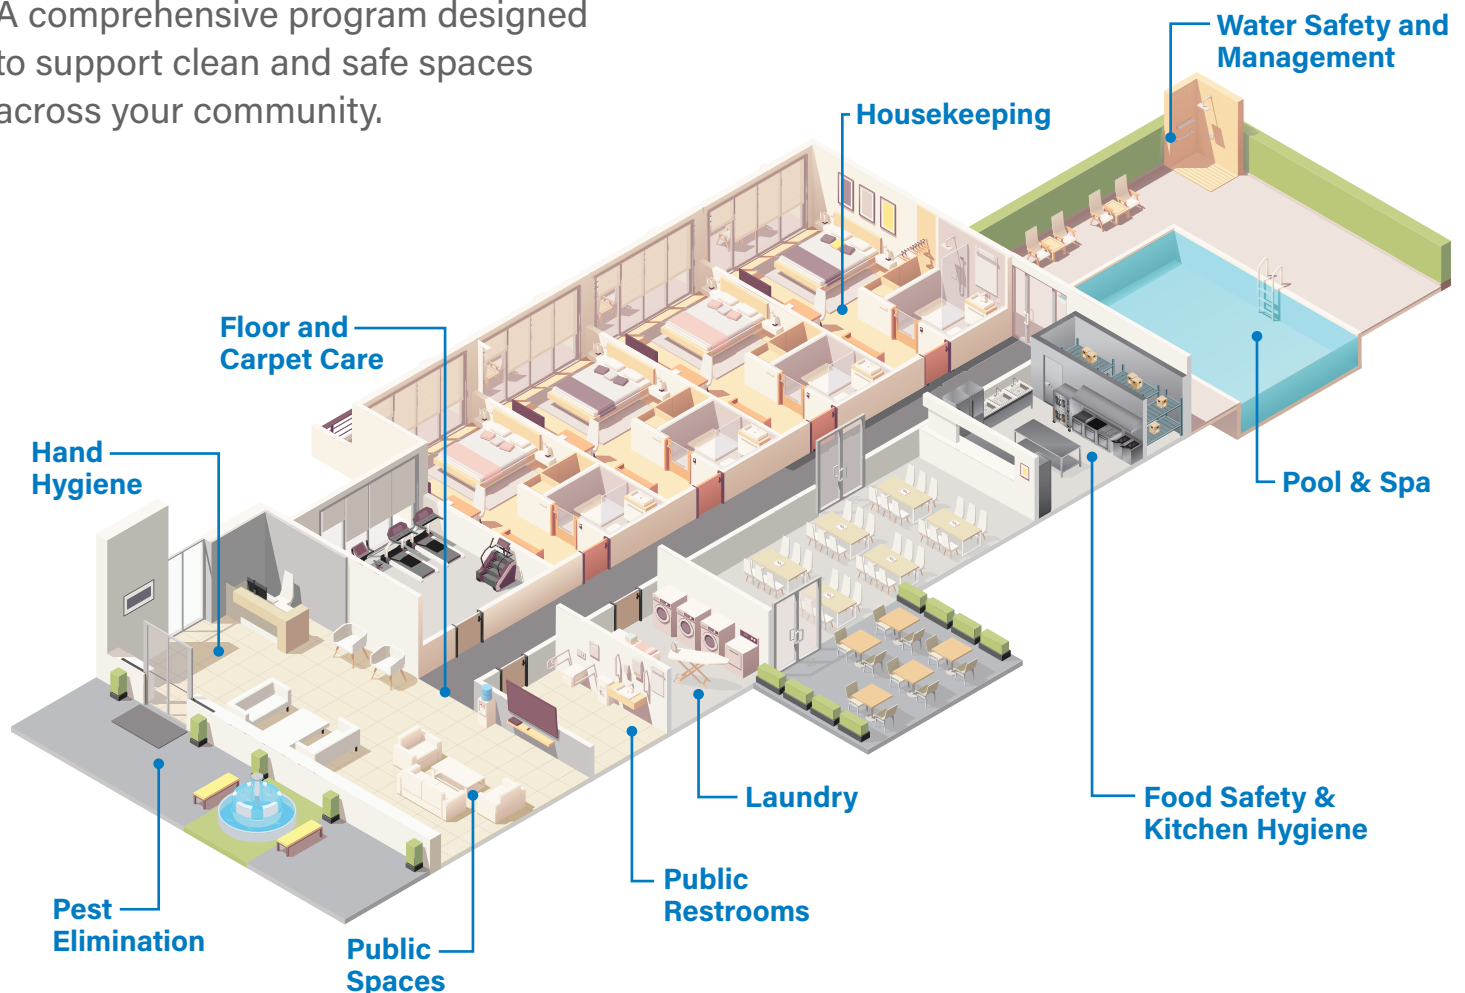

93% of prospective residents

believe there is a direct link between cleanliness and quality of care.²

2 in 3 prospective residents and caregivers

would leave a community if it did not maintain a consistent level of cleanliness.³

A comprehensive program designed to support clean and safe spaces across your community.

² Internal Ecolab research study from July 2014, published by McKnight's Senior Living. <https://www.mcknights.com/marketplace/cleanliness-is-linked-to-care/>.

³ Data from December 2023 survey of 614 consumers conducted by third-party research vendor on behalf of Ecolab.

A comprehensive long-term care program

Innovative chemistry, staff training, and proven expertise.

Environmental Services

Boost resident satisfaction and create pleasant experiences for your janitorial staff

Help simplify cleaning procedures and reduce the risk of infection with:

- EPA-registered disinfectant cleaners
- Streak-free solutions, with optimal performance on glass, windows, and mirrors
- Effective solutions that neutralize tough odors
- Easy-to-use floor cleaners that help keep floors looking nice

Hand Hygiene Program

Help prevent the spread of germs and enable a culture of health and compliance

Help reduce the risk of outbreak in all areas of your community with:

- Alcohol-based hand sanitizers and antibacterial hand soaps
- Flexible dispensing options with additional safety features
- Nexa™ Concentrates dispensing systems designed to reduce product and packaging waste

Laundry Program

Designed to deliver hygienically clean, soft, fresh linens and personals that help promote health and comfort

Help protect your linen investment and drive efficiency with:

- Hardworking, hygienically clean laundry programs
- Stain management solutions
- Simple to use and color-coded chemistry to enable staff safety and efficiency

Food Safety & Kitchen Hygiene

Deliver exceptional dining experiences and help reduce risk of foodborne illness

Food prep, kitchen cleaning, sanitation and safety solutions designed to:

- Reduce rewash and labor efforts, while achieving results that shine
- Save time, water and energy
- Promote food safety outcomes

Our proactive solutions go beyond daily operations

Pool and Spa Management

A comprehensive program to help meet pool and spa needs

Pest Elimination

Protect your reputation with effective pest control and elimination

Water Quality Management Solutions

Water filtration solutions designed for maximum safety and efficiency

EcoSure™ Brand Protection Solutions

Real-time, actionable insights help mitigate brand risk and enhance resident experience

On-Demand Digital Training

Train and retain staff with easy access to simple and flexible employee training

- Help accelerate employee onboarding and improve retention
- Address key labor challenges to drive operational efficiency
- Improve hygiene compliance with science-based cleaning procedures

Ecolab Science Certified™

A comprehensive, science-based public health and food safety program, designed with operational efficiency in mind, to help deliver a higher level of cleanliness and confidence.

Help protect residents, staff, and your resources

Clean

Helping you deliver clean, healthy spaces and exceptional experiences that inspire staff and student performance.

Protect

Providing comprehensive programs designed to protect people, your resources, business health, and reputation.

Optimize

Delivering responsible solutions that help improve operational effectiveness and efficiency.
