

## CLEANS GREASY FLOORS

### Keystone Floor Cleaner Ready-to-Use

- ▲ Concentrated formula cleans greasy floors
- ▲ Pre-portioned packet helps control cost
- ▲ Use on quarry, ceramic, epoxy and concrete floors

Alkaline floor cleaner for dissolving and emulsifying greasy soils.

**Keystone Floor Cleaner** is a concentrated, alkaline cleaner for use with a mop bucket. It removes soap film, grease, oil and other common soils. Control costs and clean with ease with one floor cleaner that can be used on a variety of surfaces.

**DIRECTIONS FOR USE:**

1. Fill mop bucket with 4 gallons of warm water.
2. Tear open packet and pour contents into a mop bucket.
3. Using a mop, spread solution on floor.
4. If needed, scrub floor with a deck brush.
5. Wipe up excess solution with mop or squeegee to drain.
6. Rinse floor with fresh water.

**Note:**  
Do not use on marble or limestone.

Keystone combines the hospitality knowledge of Guest Supply with the cleaning and sanitation expertise of Ecolab. Our experienced and dedicated sales teams provide you personalized support to help you run a clean and safe operation.
