High-traffic facilities. Low germ counts.

Your goal is to keep your building clean and safe for all who use it. Establishing a comprehensive hand care program throughout your facility can help prevent the spread of illness among occupants as well as guests. We can meet all of your hand care needs, creating a healthier environment for everyone. At Ecolab, we've developed a total hand hygiene system that combines effective chemistry with technology and training - making your hand cleaning habits efficient, safe and simple.†

WHY FOCUS ON HANDWASHING?

33% OF PEOPLE

don't use soap when washing hands.¹

95% OF PEOPLE

don't wash their hands adequately.²

FIVE MINUTES

is the amount of time the flu virus can survive on hands.³

¹http://msutoday.msu.edu/_pdf/assets/2013/hand-washing-study-1.pdf

Nexa™ Concentrates

A sustainable solution
that helps save money.

Ecolab's Nexa Concentrates provide sustainability and cost savings with uniquely designed refillable bottles for use with Nexa dispensers.

Reduce product waste.

Ecolab's sustainably designed product packaging reduces product waste by up to 90 percent.¹

Save on shipping costs.

The concentrated formula of Nexa Concentrates mean you need to order less frequently, reducing shipping costs and saving on storage space. Fewer, smaller packages also helps reduce waste pickup.

Wash with confidence.

Nexa Concentrates' refillable bottles feature a sealed system and in-chemistry preservatives to ensure safe² and effective application time-after-time.

¹Packaging waste calculation based on a 1:10 dilution ratio for Nexa Concentrates compared to standard 750mL packaging.
²Safe as long as products are used as directed.

This product meets Green Seal[™] Standard GS-41A based on effective performance and protective limits on VOCs and human & environmental toxicity. GreenSeal.org

Nexa Concentrates Dispenser

Nexa™ Dispensers

Easy, efficient
handwashing.

The Nexa Dispensing System provides efficiency, innovation and sustainability in one sleek, but adaptable, dispenser. Available in manual or touch-free.

Use fewer batteries.

Energy saving touch-free dispenser requires fewer battery change-outs.¹

Inhibit bacterial growth.

Antimicrobial protection in the manual dispenser push bar continuously blocks the growth of bacteria, mold and mildew.²

Optimize product use.

Improved HDPE³ packaging is not only recyclable, it also helps to maximize product evacuation—dispensing up to 99 percent of product.

Prevent costly waste.

Patented pump pulls excess product back in, reducing clogs and drips that result in costly product waste and preventing potential slips and falls.

¹Over the course of 50 months at 50 activations per day, in comparative testing using Ecolab's Nexa Touch-Free dispenser and leading competitor's dispenser.
²Bacteria, mold and mildew that can cause degradation.
³HDPE: High-Density Polyethylene
